## NEW VEHICLE MARKET FORECAST

## Recovery Gains Momentum; 2Q ‘23 Registrations Up 14.7\% vs. 2Q ‘22

Below is a list of 10 key trends and developments in the Chicago Area new vehicle market:

〔 Area new retail light vehicle registrations increased $6.7 \%$ in the first half of this year versus year-earlier levels. The U.S. market was up by $3.9 \%$.

T The pace of improvement should pick up steam in the second half of the year. The area market is predicted to increase 12\% from July through December of 2023 versus weak results in the second half of 2022 when supply chain interruptions significantly impacted sales.
§. As shown on the graph below, registrations for all of this year are projected to exceed 300,000 units and improve 8.7\% from 2022.
4. Light truck market share decreased slightly from $80.5 \%$ during the first six months of 2022 to $80.0 \%$ this year.
5. Registrations for Japanese brands were up $10.8 \%$ so far this year and market share reached 37.2\%
6. Battery electric vehicles accounted for $8.0 \%$ of the market in the first half of this year, up from $4.8 \%$ last year. BEV share declined from the first to the second quarter of ' 23.

Za Brands with the largest percentage increases in registrations during the first six months of this year (among top 30 brands): Buick, Tesla, Cadillac, Audi, Infiniti, Acura, Land Rover, Mazda, Chevrolet, and Honda.
8. Three biggest segments in the area are Compact SUV, 3 Row Mid Size SUV, and Subcompact SUV.

Q_ Area market share leaders in the first half of 2023 were Honda, Toyota, Chevrolet, Ford, and Hyundai.

110 Top ten selling vehicles in area market: Tesla Model Y, Honda CR-V, Toyota RAV4, Hyundai Tucson, Ford F-Series, Chevrolet Equinox, Nissan Rogue, Chevrolet Silverado, Mazda CX-5, and Toyota Highlander.

## Outlook for next two years:

 New vehicle market predicted to improve, but sales should remain slightly below averageA significant number of new vehicle purchases have been postponed since the onset of the pandemic in 2020. Estimated pent-up demand in the area market has reached 142,392 units, approximately $45 \%$ of average annual registrations (see page 3). It has been our contention that once vehicle production recovered, this "stored potential" would more than offset the drag on sales resulting from higher interest rates, a slowing economy, and weakening vehicle affordability. And the $14.7 \%$ year-over-year increase in 2 Q registrations sends a strong signal that this is indeed the case. The market should have enough gas in the tank to move higher this year, with recovery almost certainly lasting into 2024.

## Forecast for Area New Retail Light Vehicle Registrations

The graph above shows annual new retail light vehicle registrations from 2020 through 2022 and Auto Outlook's projection for 2023.
Historical data sourced from Experian Automotive.

Market Summary

|  | YID '22 | YTD '28 | \% Chg. | Mkt. Share |
| :--- | ---: | ---: | ---: | ---: |
|  | June | June | '22 to '28 | YTD '28 |
| TOTAL | 134,986 | 143,975 | $6.7 \%$ |  |
| Car | 26,349 | 28,785 | $9.2 \%$ | $20.0 \%$ |
| Light Truck | 108,637 | 115,190 | $6.0 \%$ | $80.0 \%$ |
| Domestic | 47,257 | 50,165 | $6.2 \%$ | $34.8 \%$ |
| European | 18,397 | 18,999 | $3.3 \%$ | $13.2 \%$ |
| Japanese | 48,345 | 53,558 | $10.8 \%$ | $37.2 \%$ |
| Korean | 20,987 | 21,253 | $1.3 \%$ | $14.8 \%$ |

Domestics consist of vehicles sold by GM, Ford, Stellantis (excluding Alfa Romeo and FIAT), Tesla, Rivian, and Lucid.

## MARKET PERFORMANCE DURING PAST TWO YEARS

Chicago Area Quarterly Registrations Seasonally Adjusted Annual Rate, Converted to Equivalent U.S. New Vehicle Market SAAR (millions of units)

The graph on the left provides an easily recognizable way to gauge the strength of the area market. It shows quarterly registrations based on a seasonally adjusted annual rate. These figures are then indexed to SAAR sales figures for the U.S. new vehicle market. So just like in the national market, when the quarterly SAAR is above 17 million units, the area market is strong, 15 million is about average, and below 13 million is weak. Equivalent SAAR levels in the area increased from 13.0 million in the First Quarter of this year to 14.9 million in the Second Quarter.

Data sourced from Experian Automotive. SAAR estimates: Auto Outlook.

## \% Change In New Retail Market <br> YTD 2023 thru June <br> vS.

YTD 2022

New retail light vehicle registrations in the area were up $6.7 \%$ during the first six months of this year, higher than the $3.9 \%$ increase in the Nation.

New Hybrid, BEV, and PHEV Registrations in Chicago Area by
Type of Selling Dealership - YTD 2022 and 2023 thru June

The graph above shows new vehicle registrations for hybrids, BEVs, and PHEVs during the first six months of 2022 and 2023. Orange shaded areas represent vehicles sold by franchised dealerships and blue areas for direct sellers. Data sourced from Experian Automotive.

YTD Share by Engine Type
(2022 and 2023, thru June)

|  | YTD '22 | YTD '23 |
| :--- | ---: | :---: |
| Electric (BEV) | $4.8 \%$ | $8.0 \%$ |
| Hybrid | $6.5 \%$ | $7.8 \%$ |
| Plug In Hybrid (PHEV) | $1.4 \%$ | $1.5 \%$ |

## KEY FACTS

- Battery electric vehicle market share increased from $4.8 \%$ in the first half of ' 22 to $8.0 \%$ in 2023, but declined from the First to the Second Quarter of this year.
- The industry is almost singularly focused on growth in BEV sales and market share. As a result, sales gains for hybrids have been largely ignored, which should not be the case. Hybrid vehicles provide a valuable "bridge" as the industry transitions to BEVs. They have better fuel economy than ICE vehicles, reduced emissions, and are less costly than BEVs.
- As shown above, hybrid vehicle market share in the area increased from $6.5 \%$ in the first half of last year to $7.8 \%$ this year. And 100\% of hybrids were sold by franchised dealerships.
- The graph on the left shows new vehicle registrations for Hybrids, BEVs, and PHEVs broken down by type of selling dealership. Franchised dealerships accounted for more than $67 \%$ of combined sales for all three alternative powertrain types.
- Franchised dealership share of the BEV-only market increased slightly to $29.1 \%$ in the first half of this year.

| Data sourced from Experian Automotive. |  |  |  |  |  |  |  |  |  |  |  |  |

The table shows new retail light vehicle (car and light truck) registrations in the Chicago Area market. Figures are shown for the 2nd Quarters of ' 22 and ' 23 , and year to date totals thru June. The top ten ranked brands in each change category are shaded yellow.

## BRAND SCOREBOARD

## Registrations Increased for 18 Brands in First Half of 2023

The graph below provides a comparative evaluation of brand sales performance in the area market. It shows the percent change in registrations during the first six months of this year versus year-earlier for each brand, organized by category (i.e., Domestic, European, and Asian). Although supply chain issues are easing, results for some brands have been impacted by restricted inventories during the past 18 months.

## Percent Change in Area New Retail Light Vehicle Registrations YTD 2023 thru June vs. YTD 2022

BRAND PERFORMANCE IN AREA MARKET
Hyundai, Kia, VW, Honda \& Acura are Strong Performers in Area

The graph below provides an indicator of brands that are popular in the Chicago Area (relative to the National standard), and those that are not. Here's how it works: For the top 30 selling brands, each brand's share of the U.S. market is multiplied by retail registrations in the area during the first six months of this year. This yields a "tar-
get" for the area market. Target registrations are subtracted from actual registrations to derive the measurement of sales performance.

Brands at the top of the graph (i.e., Hyundai, Kia, Volkswagen, Honda, and Acura) are relatively strong sellers in the
area, with actual registrations exceeding calculated targets by large margins. For instance, Hyundai registrations exceeded the target by 2,208 units.

Chicago Area Retail Market Performance based on registrations during YTD 2023 thru June Actual registrations minus target (area industry registrations times U.S. market share)

Actual registrations minus target (area industry registrations times U.S. market share)

## COUNTY SCOREBOARD

## McHenry County Market Increased by 12.6\% in First Half of This Year

The tables below show specific data on each of the area's eight county markets. The figures represent new vehicles registered to retail customers residing in each of the counties, and includes both pur-
chase and lease transactions. Part 1 below shows total registrations and light truck market share during the first six months of 2022 and 2023. Part 2 presents market shares for Domestic brands, and the top

10 selling car and light truck brands in the Chicago Area. The top three ranked counties in each category are shaded.

Data sourced from Experian Automotive
